

Agricultural Economics  
Master of Science

Curriculum

March 2015

## Preamble

This curriculum provides applicants and students as well as teaching and administrative staff with comprehensive information about the M.Sc. programme „Agricultural Economics“. It contains information about the course structure, summarises the most important exam regulations (issued the 15<sup>th</sup> of May 2014).

The information presented reflects the current situation. Titles and contents of compulsory and optional modules are sometimes subject to change. Due to administrative reasons such changes can only be considered in printed materials with delay. For this reason all information is supplied without liability.

If in doubt, please refer to the coordinator of the programme ([agecon@uni-hohenheim.de](mailto:agecon@uni-hohenheim.de)) to obtain up-to-date information. For up-to-date module descriptions please refer to the web-pages at [www.uni-hohenheim.de/modulkatalog](http://www.uni-hohenheim.de/modulkatalog). Time schedules and lecture halls of all courses are displayed in the Course Catalogue of the University of Hohenheim, available at the beginning of each semester online on the university's homepage: [www.uni-hohenheim.de](http://www.uni-hohenheim.de).

## The Master's Programme *Agricultural Economics (AgEcon)*

### **Programme Objectives**

As humanity's single largest use of the earth's resources, agriculture is a major driving force in the world economy. Food and agricultural raw materials are being produced, financed, traded, processed, regulated, researched, marketed, and consumed world-wide. Agricultural Economics examines the use of available resources from farm to fork to meet the needs and desires of present and future generations. Sustainability, food security, food safety, environmental quality, agricultural policy reform and rural community development are typical issues that agricultural economists study in an international context. The Master of Science (M.Sc.) programme "Agricultural Economics" at the University of Hohenheim is designed to prepare qualified people of all nationalities for these and other challenging tasks. In Germany, it is presently the only agricultural economics programme being taught in the English language.

### **Programme Design**

The two-year M.Sc. programme "Agricultural Economics" comprises four semesters, during which 15 thematic modules (5 compulsory, 5 from a list of 9 modules and 5 elective modules) and the Master Thesis have to be completed. The language of instruction is English and the programme can be started in October (winter semester) each year.

The programme is laid out for a total workload of 4 x 20 SWS (weekly contact hours per semester). The first 3 semesters cover a total of 60 SWS (lectures and seminars). During the final semester students work on their thesis equivalent to 20 SWS.

The programme follows a modular course structure. A typical semester consists of five modules. In the first two semesters, students complete five compulsory and five semi-elective modules. In the third semesters, they choose five elective modules from a broad list of subjects and in the fourth semester they work on their thesis. This programme structure ensures a solid agricultural economics education but also allows students to get trained according to their own career aspirations.

	1. Semester	2. Semester	3. Semester	4. Semester
6 Credits	4904-460 (Berger) Farm System Modelling	4201-410 (Grethe) Agricultural and Food Policy	Elective module	<b>Master Thesis</b> (30 credits)
6 Credits	4902-410 (Brockmeier) Applied Econometrics	4101-410 (Lippert) Environmental and Resource Economics	Elective module	
6 Credits	4202-450 (Becker, T.) Microeconomics	Semi-elective module	Elective module	
6 Credits	Semi-elective module	Semi-elective module	Elective module	
6 Credits	Semi-elective module	Semi-elective module	Elective module	

## Modules

All modules of the programme last the full length of the semester. Some elective modules are offered as blocked courses, each including three weeks of instruction, one week of individual preparation, and an exam at the end of week four.

Each 6 credits module corresponds to a workload of 4 SWS (weekly contact hours per semester), which is 56 contact hours per module. In addition time for preparation at home is needed, summing up to a total workload of about 160 hours for one module. It may consist of different forms of teaching (e.g. seminar, lecture, practical, excursions).

The **compulsory modules** are:

Sem	Code	Name of Module	Duration	Credits	Professor
1	4904-460	Farm System Modelling	First half of semester	6	Berger
1	4902-410	Applied Econometrics	1 Semester	6	Brockmeier
1	4202-450	Microeconomics	1 Semester	6	Becker, T.
2	4201-410	Agricultural and Food Policy	1 Semester	6	Grethe
2	4101-410	Environmental and Resource Economics	1 Semester	6	Lippert

Of the following list of **semi-elective modules**, five modules have to be chosen:

Sem	Code	Name of Module	Duration	Credits	Professor
1	4903-480	Governance, Institutions, and Organisational Development	1 Semester	6	Birner
1	4301-410	Knowledge and Innovation Management	1 Semester	6	Knierim
1	4901-420*	Poverty and Development Strategies	Second half of semester	6	Siddig
1	4904-450*	<a href="#">Farm and Project Evaluation</a>	1 Semester	6	Berger
2	4904-410*	Agricultural Economics Seminar	1 Semester	6	Berger
2	4903-470	Qualitative Research Methods in Rural Development Studies	1 Semester	6	Birner
2	4902-420	International Food and Agricultural Trade	1 Semester	6	Brockmeier
3	4902-430	<a href="#">Food and Nutrition Security</a>	1 Semester	6	Brockmeier
3	4903-500	Policy Processes in Agriculture and Natural Resource Management	1 Semester	6	Birner
3	4904-430	Land Use Economics	First half of semester	6	Berger
3	4901-470*	<a href="#">Quantitative Methods in Economics</a>	Second half of semester	6	Siddig
3	4201-420	Advanced Policy Analysis Modelling	1 Semester	6	Grethe

\* Limited number of participants. Please register for participation per ILIAS

Five further **elective modules** have to be chosen. The modules can be chosen from the complete catalogue of the University's agricultural master modules (see: [www.uni-hohenheim.de/modulkatalog](http://www.uni-hohenheim.de/modulkatalog)). Up to 30 credits

can also be chosen from courses offered by other study programmes at the University of Hohenheim, by another German university or by a foreign university, insofar as these are approved by the examination board.

Suggestions for **elective modules**:

Sem	Code	Name of Module	Duration	Credits	Professor
1-4	3000-410	Portfolio-Module (Master)	Not defined	1 - 7,5	Müller, T.
1	4201-440	Economics and Environmental Policy	1 Semester	6	Grethe
1	5207-420	Theoretical Foundations 2 (pos. 6 credits in WS 16/17)	2 Semester, begins WS	4,5 (!)6	Beißinger
2	4903-510	Agriculture and Food Security in Crisis-Affected Regions	1 Semester	6	Birner
2	5202-710	Advanced Econometrics	1 Semester	6	Wagenhals
2	5203-510	Industrial Organization and Competition Theory 1	1 Semester	6	Schwalbe
2	5205-510	International Trade 1	1 Semester	6	Jung
2	5206-510	Consumer Policy	1 Semester	6	Ahlheim
2	5207-510	Labour Economics 1	1 Semester	6	Beißinger
3	4903-440	Mixed Methods in Agricultural Economics and Social Sciences	1 Semester	6	Birner
3	4903-450	Innovations in Agriculture	1 Semester	6	Birner
3	5202-610	Microeconometrics	1 Semester	6	Wagenhals
3	5202-620	Econometrics II (5202-620)	1 Semester	6	Osikominu
3	5210-410	Economic History & History of Economic Thought 1	1 Semester	6	Lehmann

**Module Descriptions** For the contents of all modules see: [www.uni-hohenheim.de/modulkatalog](http://www.uni-hohenheim.de/modulkatalog)

**Individual Timetable** The Course Catalogue of the University of Hohenheim contains information on times, lecturers and lecture rooms of all courses and is available at the beginning of each semester online at the university's homepage: [www.uni-hohenheim.de](http://www.uni-hohenheim.de). It is linked to the Module Descriptions. A tool to compose an individual timetable is available on the Intranet. Mind: especially non-blocked modules often consist of more than one course.

**Credit Point System** With each completed module the students earn credits for the workload associated with each module. The M.Sc. programme has a requirement of 120 credits in total. The credit point system used in the M.Sc. programme is fully compatible with the European Credit Transfer System, ECTS.

**Marks and Grades**

The examination result is expressed in grades and marks. The highest score is 1.0 [grade A]. A score of 4.0 [grade D] is required for passing. The end score is calculated as a weighted average score according to the credits achieved in all modules and the thesis.

	marks and grades		
	grades	mark	
<i>excellent performance</i>	<i>very good</i>	A	1.0
		A-	1.3
<i>performance considerably exceeding the above average standard</i>	<i>good</i>	B+	1.7
		B	2.0
		B-	2.3
<i>performance meeting the average standard</i>	<i>medium</i>	C+	2.7
		C	3.0
		C-	3.3
<i>performance meeting minimum criteria</i>	<i>pass</i>	D+	3.7
		D	4.0
<i>performance not meeting minimum criteria</i>	<i>fail</i>	F	5.0

### **Study and Examination Plan**

Students have to seek advice of one of the mentors of the programme on which elective modules are suitable for their individual profile. During the first month of study a counselling confirmation has to be signed by a coordinator or mentor and handed in to the examination office, before registration for module examination is possible. After registration for examination a module cannot be dropped any more.

### **Examinations**

Performance is examined through continuous assessment. Each module is examined upon completion. The examinations of the blocked modules are held at the end of the respective block period; those for the unblocked modules are held in the two examination periods that follow the lectures. Students have to register for the examinations of each semester at the examination office during the time period announced at the examination office (within this time period: blocked modules one week before exam at the latest!). Withdrawal on the first trial of each module's examination is possible up to 7 days before the examination date. The examination will be postponed to the next possible examination period.

The claim for examination expires if:

- a minimum of six examinations has not been passed by the end of the second semester at the latest
- an examination of one of the modules has not been passed by the end of the sixth semester at the latest
- in one of the 15 modules an exam has to be repeated more than two times

The claim for examinations does not expire if the candidate cannot be held responsible for the failure to comply with the deadline. The students themselves are responsible for complying with these examination deadlines as well as all other regulations given in the examination regulations. The examination regulations and a leaflet on registration (see: <https://pruefungsamt.uni-hohenheim.de>) are distributed by the examination office.

Please mind that plagiarism, that means the take-over of text or phrases in a written examination (even within a partial performance) without quoting them accordingly, will be marked as attempt of deception and the respective examination performance is to be graded "fail" (F; mark 4.0). A declaration (<https://agrar.uni-hohenheim.de/plagiate.html?&L=1>) has to be at-

tached to homeworks, presentations, and to the thesis and the final digital text document has to be transferred to the mentoring supervisor.

### ***Exam Repetition***

In case of failure the examination office will inform the student via mail. Normally, the letter includes the repetition date. In some cases the date for repetition has not been pointed out at the time of informing the students. Students are responsible themselves to check with the responsible professor or the examination office about dates for repeater exams. Usually repeater exams for blocked modules will be scheduled by the responsible professor within the same semester. Repeater exams in lectures will usually automatically be scheduled for the next examination period.

### ***Master Thesis***

The master thesis shall show that the candidate is able to work independently on a problem in the field of "Agricultural Economics" within a fixed period of time by applying scientific methods. The exam consists of a written (thesis) and an oral (defense) part. The candidate has to defend the essential arguments, results and methods of the thesis in a colloquium of 30-45 minutes. The written part of the master thesis has to be completed within a period of six months. It is usually written during the fourth semester. Depending on the chosen modules there might be cases where the third semester is more appropriate. Thesis work includes a literature review, new and original data derived from field work, a period of writing-up and, finally, a presentation. This work can be carried out either at Hohenheim University or at one of the various partner universities.

Important information concerning the topic of the master thesis: According to the examination regulations the candidate may choose a topic of a subject field of compulsory or elective modules, which he/she attended. The topic cannot be chosen of a subject field of an additional module.

### ***Quality Assurance***

The quality of courses and modules is evaluated in a two year rotation by the students of all study programmes. The evaluation sheets are distributed and evaluated by the Faculty of Agricultural Sciences and the results are sent back to the lecturers in an **anonymous** format. The lecturers are asked to discuss the results with the students at the end of their courses.

### ***Academic calendar***

In the winter semester (WS) courses usually begin in week 42 and end in week 6 or 7 of the new year. In the summer semester (SS) courses usually begin the first Monday in April and end in week 30, 31, or 32. For unblocked modules the lecture period of each semester is followed by an examination period of three weeks. The last block period of each semester has an overlapping with this examination period of the unblocked modules.

### ***Teaching Staff & Mentoring***

The professors of the University of Hohenheim have broad experience in international research. Students also benefit from Hohenheim's active links with academic partners worldwide. Guest speakers from partner universities as well as research, development and policy institutions cover additional topics, and thus enrich the curriculum with special fields of expertise. A personal mentor from the teaching staff is assigned to advise on appropriate profiles and support smooth and goal-oriented progress. The study and examination plan has to be signed by a mentor before it is handed in to the examination office. Which elective modules are suitable for the individual profile, can be discussed first with the department advisor for the programme. Mentors are:

- Prof. Dr. Thomas Berger, Institute of Land Use Economics in the Tropics and Subtropics (490)
- Prof. Dr. Martina Brockmeier, Institute of International Agricultural Trade and World Food Security (490)
- Prof. Dr. Harald Grethe, Institute of Agricultural and Food Policy (420)
- Prof. Dr. Lippert, Institute of Production Theory and Resource Econom-

ics (410)

- Prof. Dr. Manfred Zeller, Institute of Rural Development Economics and Policy (490)

### **Study Abroad**

Students are encouraged to spend one semester in the second year at a partner university abroad, to gain additional experience and further strengthen their individual profile. Our credit point system is intended to facilitate the mutual acceptance of courses attended at different universities. Assessment is based on the European Credit Transfer System (ECTS), which facilitates such kind of international mobility. German students are strongly advised to spend a semester abroad. Particularly, the third semester is suitable for integrated study abroad. Students will preferably spend this time at one of the partner universities of the Euro League for Life Sciences: Universität für Bodenkultur Wien (BOKU), Austria; Royal Veterinary and Agricultural University (KVL), Denmark; Swedish University of Agricultural Sciences (SLU), Sweden; Wageningen University, Netherlands; Czech University of Agriculture (CUA), Czech Republic, Warsaw Agricultural University (SGGW), Poland. On the basis of an agreement on quality standards the members of the Euro League for Life Sciences have agreed to mutually recognize study achievements. Quantitative parity of study achievements is based on the European Credit Transfer System (ECTS). Students may also request to spend the semester at universities other than mentioned above.

### **Degree**

After successful completion of all modules as well as the thesis, the student is awarded the degree "Master of Science" (M.Sc.). This degree entitles the student to continuing with a Ph.D./doctoral programme if the total grade is above average.

### **Responsible Scientist**

Prof. Dr. Harald Grethe  
Agricultural and Food Policy

### **Professors in Charge of Compulsory Modules**

Prof. Dr. Thomas Berger  
Land Use Economics in the Tropics and Subtropics

Prof. Dr. Tilman Becker  
Agricultural Policy and Markets

Prof. Dr. Christian Lippert  
Production Theory and Resource Economics

Prof. Dr. Harald Grethe  
Agricultural and Food Policy

Prof. Dr. Martina Brockmeier  
International Agricultural Trade and Food Security

<b>M.Sc. Landscape Ecol- ogy</b>	● 3201-620 (Schmieder) Vege- tation and Soils of Centr. Europe	● 3201-590 (Schurr) Combining Ecological Modells and Data	● 3101-570 (Herrmann) Field Course Soils and Vegetation	● 3201-600 (Schurr) Intensive Course Landscape Ecology	
	● 3103-450 (Streck) Spatial Data Analysis with GIS	● 3101-560 (Rennert) Soils of the World	● 3803-450 (Asch) Crop Production Affecting the Hydrological Cycle		
		● 3802-420 (Rasche) Biodiversity, Plant and Animal Gen. Resources			
<b>M.Sc. EnvEuro Environm. Impacts</b>	● 3103-450 (Streck) Spatial Data Analysis with GIS	● 3802-420 (Rasche) Biodiversity, Plant and Animal Gen. Resources	● 3803-450 (Asch) Crop Production Affecting the Hydrological Cycle	● 3103-460 (Streck) Environ- mental Science Project	
		● 3101-560 (Rennert) Soils of the World	● 3101-570 (Herrmann) Field Course Soils and Vegetation	● 4403-410 (Müller, J.) Irrigation and Drainage Technology	
<b>Environm. Management</b>	● 3103-450 (Streck) Spatial Data Analysis with GIS	● 3801-430 (Cadisch) Integrated Agricultural Produc- tion Systems	● 4403-470 (Müller, J.) Renewable Energy for Rural Ar- eas	● 3103-460 (Streck) Environ- mental Science Project	
		● 3802-420 (Rasche) Biodiversity, Plant and Animal Gen. Resources		● 4403-410 (Müller, J.) Irrigation and Drainage Technology	
<b>Soil Resources and Land Use</b>	● 3103-450 (Streck) Spatial Data Analysis with GIS	● 3101-560 (Rennert) Soils of the World	● 3803-450 (Asch) Crop Production Affecting the Hydrological Cycle	● 3103-460 (Streck) Environ- mental Science Project	● 3301-480 (Müller, T.) Fertilisa- tion and Soil Fertility Manage- ment in the T. and S.
		● 3102-440 (Kandeler) Environmental Pollution and Soil Organisms	● 3101-570 (Herrmann) Field Course Soils and Vegetation	● 4403-410 (Müller, J.) Irrigation and Drainage Technology	○ 3102-420 (Kandeler) Boden- wissenschaftl. Experiment/Project in Soil Sciences (Engl.+ Ger.)
<b>Climate Change</b>	● 3103-450 (Streck) Spatial Data Analysis with GIS	● 3802-420 (Rasche) Biodiversity, Plant and Animal Gen. Resources	● 3803-450 (Asch) Crop Production Affecting the Hydrological Cycle	● 3103-460 (Streck) Environ- mental Science Project	
			● 4403-470 (Müller, J.) Renew- able Energy for Rural Areas	● 3803-430 (Asch) Ecophysio- logy of Crops in the T+S	
				● 4403-410 (Müller, J.) Irrigation and Drainage Technology	
<b>Ecosystems and Biodi- versity</b>	● 3103-450 (Streck) Spatial Data Analysis with GIS	● 3201-590 (Schurr) Combining Ecological Modells and Data	● 3101-570 (Herrmann) Field Course Soils and Vegetation	● 3103-460 (Streck) Environ- mental Science Project	
		● 3802-420 (Rasche) Biodiversity, Plant and Animal Gen. Resources		● 3201-600 (Schurr) Intensive Course Landscape Ecology	

Anmeldemodalitäten für Teilnahme siehe Modulkatalog / Check module descriptions for how to register for participation (<https://www.uni-hohenheim.de/modulkatalog.html>)

## Explanation of Module Code

# Lecture Periods

<b>WS 14/15</b>	<b>First day of <u>un</u>-blocked modules:</b>	(42. KW) Monday, 13.10.2014
	<b>First day of blocked modules:</b>	(42. KW) Monday, 13.10.2014
	<b>Last day of <u>un</u>-blocked modules:</b>	(6. KW) Saturday, 07.02.2015
	<b>Last day of blocked modules:</b>	(7. KW) Friday, 13.02.2015
<b>SS 15</b>	<b>First day of blocked modules:</b>	(16. KW) Monday, 13.04.2015
	<b>First day of <u>un</u>-blocked modules:</b>	(16. KW) Monday, 13.04.2015
	<b>Last day of <u>un</u>-blocked modules:</b>	(30. KW) Saturday, 25.07.2015
	<b>Last day of blocked modules:</b>	(32. KW) Friday, 07.08.2015

**Free of lectures:** All Saints' Day: 01.11.2014, Christmas holidays: Mo 22.12.2014 – Tu 06.01.2015, Easter holidays: Fr 03.04. – Mo 06.04.2015, Labour Day: Fr 01.05.2015, Ascension Day: Tu 14.05.2015, Pentecost holidays: Mo 25.05.2015 – Sa 30.05.2015 (excursions might take place), Feast of Corpus Christi: Th 04.06.2015. The "Dies Academicus" (03.07.2015) will be free of lectures too.

## Examination periods in winter semester 2014/15

**B.Sc. and M.Sc. period 1:** calendar week 7 to 9  
**B.Sc. and M.Sc.: period 2:** calendar week 14 to 15  
**Deadline for the registration for exams:** is fixed by the examination office

## Examination periods in summer semester 2015

**B.Sc. and M.Sc. period 1:** calendar week 31 to 33  
**B.Sc. and M.Sc.: period 2:** calendar week 39 to 41  
**Deadline for the registration for exams:** is fixed by the examination office

Questions concerning the examination regulations, the study and examination plan, withdrawal or transcripts of records are answered at the examination office and the exact dates of the module examinations are posted at the online notice-board of the examination office at: (<https://www.uni-hohenheim.de/pruefung.html?&L=1>).
