## **POSTERS SESSION 1**

Climate vulnerability and adaptation to dwindling water availability in Melamchi watershed Central Nepal Pradio Gautam. Wadeningen

Modelling nitrogen and phosphorus loading from finfish aquaculture Ciska Overbeek. Wageningen

Investigating Determinants for Carbon Dioxide, Methane and Nitrous Oxide Emissions from Crop Production Systems under Central European Conditions Lars Odefey, Hohenheim

Carbon Sequestration Projects in the Peruvian Tropical Forest Teresa Rojas, Hohenheim

Public subsidies for advanced irrigation technologies as adaptation measure for climate change Christian Troost, Hohenheim

Expectations and Global Climate Change Jan Horický, Prague

Optimization of soil-amendment mixtures for subsurface irrigation systems Andreas Schwen, Vienna

Climate change scenarios for the headwaters of the Große Mühl - bias evaluation of ECHAM5/REMO input data and hydrological analysis Klaus Haslinger, Wien

The results of climate change for agriculture Ewelina Gajo, Warsaw

Coupling of Mid-Infrared Spectroscopy with Evolved Gas Analysis for Prediction of Soil Organic Matter Pools and Activities Scott Demyan, Hohenheim

Levels and determinants of mal-nutrition in children, southern Ethiopia: Situational analysis in the changing climate and rising global food prices Fikadu Reta Alemayehu, Copenhagen

Preparing for the impacts and adapting to the Inevitable:What can Sustainable Agriculture do in Addressing the Climate Change Challenge? Justice Akoene Tambo. Hohenheim

Monitoring of fish qualitative characteristics Petr Doxanský, Prague

Impacts of different soil tillage treatments on soil microbial activity of agriculturally used soils in Austria Undrakh-Od Baatar, Vienna

Impacts of different soil tillage treatments on soil carbon dynamics and CO<sup>2</sup> emissions from agricultural soils Gerlinde Trümper, Vienna

## **POSTERS SESSION 2**

Does global warming change earthworm mediated CO<sup>2</sup> and N2O release from a soil?

Effects of elevated CO<sup>2</sup> and different climatic conditions Ivan Guzman, Hohenheim

Impacts of elevated CO<sup>2</sup> concentration and biodiversity on the carbon carbon cycle of a Mediterranean model ecosystem Franziska Kugler, Hohenheim

Ozone biomonitoring with different cultivars of snap bean Helen Willems, Hohenheim

Variation in protein complexation and phenolic content within and among species across an altitudinal gradient in subarctic Sweden. Elin Olofsson, Uppsala

**Does Heracleum mantegazzianum have allelopathic or autopathic effects? – A test of the ,novel weapon' hypothesis** Christine Frigaard Weinreich

Climate change impacts on spruce bark beetle Lenka Zajickova

Study of the implementation of the Convention on Biological Diversity (articles 5, 8, 13) in the National Park Morrocoy-Venezuela Alejandro Ceballos, Copenhagen

Biofuel versus food production and deforestation in the Brazilian savannah: impact on food security and climate change Marcus,Finco, Hohenheim

**Biogas support for Tanzania** Johannes Krümpel, Hohenheim

Desertification, a threat to regional development, the case of Northern Cameroon Margarette Enowkpa Egbe Tambi, Copenhagen

Freshwater scarcity Nečekal Mikuláš, Prague

Impact of global climate change on consumer decision making Petr Pohl, Prague

### Climate Change – Global Change Impacts, Adaptation and Mitigation

University of Hohenheim, 5 – 6 November 2009

**Scientific Student Conference** 

www.euroleague-study.org/en/SSC

# PROGRAMME

# **INTRODUCTION**

Global climate change threatens to alter the geo- and biosphere of our planet irreversibly. As a result, our social and economic systems will be confronted with substantial challenges in the future. The first Euroleague for Life Science Student Conference on "Climate Change – Global Change: Impacts, Adaptation and Mitigation" brings together students and teachers from the seven **ELLS partner universities** to address some of these forthcoming issues. Problems and threats will be discussed regarding: food production and security, biodiversity and ecosystem functioning, biofuel energy sources and social science and economics. The conference will highlight ideas and results from young scientists who will be instrumental in our fight against the impacts of global climate change.

#### Thursday, 5 October 2009

8:00	Registration and poster mounting	
9:00	Welcome and opening by Rector Hans-Peter Liebig, Hohenheim	
9:10	Climate Change – observed impacts, unavoidable adaptation and necessary mitigation Prof. Hartmut Graßl, Max-Planck-Institute for Meteorology Hamburg	
Session 1: Environmental modelling Chair: Stefan Ignar Warsaw		
10:00	Introduction: Land use changes and climate change effects on the water regime   Willibald Loiskandl, Vienna	
10:20	Management practises and evaluation of performance indicators for concept of sustainable development within stormwater management master plan / Case study Tehran Annette Ziller, Vienna	
10:35	Groundwater monitoring on wetland areas – description of hydrological status of fens, bogs and marshes of the Red Bog   (Biebrza Valley, Poland)   Alicja Zajaczkowska, Warsaw	
10:50	Impact of climate change on discharges in the Czech Republic   Adam Vizina, Prague	
11:05	Analysis of precipitation extremes in transient RCM runs Martin Hanel, Prague	
11:20	Life cycle assessment (LCA) on various rice cropping systems and their impacts on environment in Asia. Barbara Dannenmann, Hohenheim	
11:35	Coffee Break	
Session 2: Impacts on agriculture, food security and food quality Chair: Lutz Graeve, Hohenheim		
11:50	Introduction: A Food Safety Perspective on Climate Changes   Susanne Knöchel, Copenhagen	
12:10	Antimicrobial compounds from protective cultures and their quantification   Eva Clara Wegscheider, Copenhagen	
12:25	Can integrated water resources management help subsistence agriculture farmers adapt to climate change? Kok Boon Wee, Uppsala	
12:40	Poverty impacts of climate change in Linares province of Chile Evgeny Latynskiy, Hohenheim	

12:55	Soil organic carbon dynamics in soybean-based cropping systems in the Brazilian Cerrados   Laura Batlle Bayer, Wageningen	
13:10	Lunch	
Session 3: Impacts on biodiversity and ecosystem functioning Chair: Willibald Loiskandl, Vienna		
14:00	Climate change and conservation challenges Jörgen Rudolphi, Uppsala	
14:20	Effects of climatic changes on the hydrology, chemistry and vegetation of the Red Bog Ewelina Kosela, Warsaw	
14:35	Method for measuring nature conservation values on drained peatlands from a landscape perspective Hanna Engström. Uppsala	
14:50	Analysis of a river training structure according to Schauberger Daniel Maurer, Vienna	
15:05	Impact of climate change on cyanobacterial blooms in the Baltic Sea   Maria Lund Paulsen, Copenhagen	
15:20	Does elevation of atmospheric CO2 affect the abundance and function of denitrifiers in a grassland ecosystem? Kathleen Regan, Hohenheim	
15:35	Coffee break Guided poster session 1   Chair Johannes Steidle, Hohenheim	
Session 4. Bioenergy and biofuels Chair: Bjarne Strobel, Copenhagen		
16:30	Bioenergy - boon or bane   Joachim Müller, Hohenheim	
16:50	Certification as a means for sustainable biofuel production? – Potentials and constraints   Umejesi Emeka, Hohenheim	
17:05	Development of works with energy crops in Department of Plant Physiology WULS, with a special emphasis on CO <sup>2</sup> absorption by these crops   Tomasz Horaczek, Warsaw	
17:30	Guided poster session 2   Bjarne Strobel, Copenhagen	
18:30	Buffet dinner	
20:00	Students Party at Thomas-Müntzer-Scheuer organised by the International Students Organisation	

#### Friday, 6 November 2009

	Session 5: Climate change, economy and society Chair: Wim Heijman, Wageningen	
08:30	Introduction: Impact of Global Climate Change on Economy and Economics   Petr Prochazka, Prague	
08:50	Carbon sequestration in forests as a method of climate change mitigation based on examples in Poland and Iceland. Joanna Dziankowska, Warsaw	
09:05	Adaptation to Climate Change among rural People in South Bangladesh   Mette Skamris, Copenhagen	
09:20	Using GMO to Combat the Effects of Global Warming Olga Sramkova, Prague	
09:35	Emission Trading in the EU   Zuzana Macháčková, Prague	
10:00	Workshop on student mobility "Looking beyond your own backyard - Benefits of a study abroad period" Moderation: Anna Lauritz, SLU Uppsala	
11:00	Coffee Break	
11:30	Discussion with Rectors of the ELLS universities How do life science universities meet the challenges of a changing world? – Student mobility and possibilities for taking up hot new subjects at your university. Moderation: Anja Pedersen, SLU (Chair of the Euroleague Student Association ELSA)	
Award ceremony		
12:30	ELLS Distinguished Fellowship Willibald Loiskandl, BOKU Vienna	
	Appreciation of the first degree holders of the MSc. EnvEuro Bjarne Strobel, LIFE Copenhagen	
	ELLS Prize for Excellent MSc Theses Hans-Peter Liebig, Rector University of Hohenheim	
13:00	Closing and Lunch	
14:00	Facultative afternoon programme   - Excursion to research station   "Unterer Lindenhof and visit of the biogas plant   - Guided tour to   Mercedes-Benz-Museum Stuttgart
