The ranking success as the most beautiful campus in the state is followed by the election to the most popular university in Baden-Württemberg: The current ranking on the degree program evaluation platform "StudyCheck" puts the University of Hohenheim in Stuttgart in 1st place in Baden-Württemberg and in 2nd place in Germany after the European Viadrina University in Frankfurt/Oder. Other state universities with top ten places are the University of Mannheim (4th place) and the KIT (9th place). This means Baden-Württemberg has the most universities with top evaluations from students. Details can be found at www.studycheck.de/hochschulranking/beliebteste-universitaeten.

The selection criteria are strict: Only universities with at least 3.8 out of 5 stars and a recommendation rate over 90 percent are included in the ranking. In addition, at least 50 students had to have submitted a rating between 1 January and 31 December 2017.

Currently, around 500 university with over 16,000 degree programs are included in the assessment. The evaluation includes the content of the degree programs, quality of supervision, courses, and resources, but also campus life and organization. The ratings also include reports from the students.
